Subject: Phthalates materials submitted to STICS
Attachments: For STICS 11-17-17.zip

Hi,

I wanted to give you a heads up that the phthalate team just submitted a package in STICS that we intend to send to the editor of Environment International as a proposal for a special issue on the systematic review of phthalate health effects. (Tracking # ORD-024359.) It includes a cover letter, nine abstracts (corresponding to nine manuscripts that will be in the proposed special issue), and the systematic review protocol. We already talked to the journal editor, and these are the materials he requested from us.

I uploaded the abstracts each as separate files, so... it's a lot of files. I've attached them here as a zip file. Kris has already reviewed the cover letter and the systematic review protocol, and we addressed her comments.

Thanks, and please let me know if you have any questions! Have a great weekend.

-Erin
